

JOSEPH (JOE) BUDDS

PROJECT COORDINATOR | DATA QUALITY | PROCESS IMPROVEMENT

McAlester, OK | (918) 916-0017 | joe.budds41@gmail.com | linkedin.com/in/joe-budds-314009395

PROFESSIONAL SUMMARY

Project coordination, data-quality, and enterprise-systems professional with 21+ years of federal logistics experience supporting complex, regulated operations. Proven record coordinating cross-functional initiatives, analyzing KPIs, briefing senior leaders, documenting workflows and procedures, resolving non-standard system issues, and delivering projects against milestones. Advanced user of Microsoft Excel, PowerPoint, Word, and Power BI with deep SAP/LMP experience, strong data integrity discipline, and a practical approach to process improvement, stakeholder support, and change implementation.

CORE COMPETENCIES

Project Coordination | KPI Tracking & Reporting | Data Quality & Integrity | Process Improvement | Business Analysis | Workflow & Procedure Documentation | Executive Briefings | Cross-Functional Collaboration | User Acceptance & System Support | Training & Change Enablement

TECHNICAL TOOLS

Microsoft Excel | Microsoft Power BI | Microsoft PowerPoint | Microsoft Word | SAP Logistics Modernization Program (LMP) | ERP Reporting | Microsoft Outlook | Virtual Training Platforms | Inventory & Warehouse Management Systems

PROFESSIONAL EXPERIENCE

Training Coordinator / Logistics Modernization Program Specialist | 2024 - Aug 2025

McAlester Army Ammunition Plant (MCAAP) | McAlester, OK

- Coordinated and delivered onsite and virtual SAP/LMP training initiatives for end users and subject-matter experts, aligning schedules, materials, system requirements, and stakeholder expectations.
- Analyzed workflow and information requirements, identified data-quality and knowledge gaps, and partnered with business-process owners to implement corrective actions and sustainable improvements.
- Developed training content, process documentation, job aids, and presentations explaining complex system functions, business rules, reporting requirements, and regulated procedures.
- Supported current- and future-state process documentation for automated-system development, maintenance, and operational change.

Logistics Modernization Program Specialist | May 2011 - 2024

McAlester Army Ammunition Plant (MCAAP) | McAlester, OK

- Served as SAP/LMP subject-matter expert across inventory and warehouse management, material master, supply-chain planning, production, acquisition and supply, sales and distribution, project systems, and finance.
- Coordinated resolution of complex system and business-process issues among users, leadership, process owners, and technical support teams; tracked tickets, escalations, corrective actions, and outcomes.
- Used qualitative and quantitative analysis to evaluate ERP effectiveness, data quality, productivity, stabilization efforts, and process-improvement opportunities.
- Translated operational needs into system and reporting requirements, supported testing and implementation, and reinforced accurate procedures after changes were released.
- Prepared status updates, findings, recommendations, and instructional presentations for technical and non-technical audiences.

Supervisory Logistics Management Specialist (Temporary Promotion) | Mar 2020 - May 2020

McAlester Army Ammunition Plant (MCAAP) | McAlester, OK

- Supervised 20+ personnel supporting inventory, distribution and control, shipping, receiving, investigations, technical studies, and logistics-data accountability.
- Planned projects using milestones and checkpoints, assigned work according to priorities and capabilities, monitored progress, addressed risks, and briefed leadership on status.
- Coordinated workforce training and cross-training, evaluated performance, balanced workload, and maintained continuity across mission-critical operations.

PROFESSIONAL EXPERIENCE, CONTINUED

General Supply Specialist / Inventory Lead | Jul 2014 - Dec 2015

McAlester Army Ammunition Plant (MCAAP) | McAlester, OK

- Led inventory-control activities for regulated Class V material, analyzed order and usage records, coordinated stock requirements, and authorized adjustments within established authority.
- Reviewed and approved inventory adjustments exceeding \$5,000 while maintaining documentation, traceability, regulatory compliance, and data accuracy.
- Coordinated users, suppliers, storage locations, lead times, units of issue, quality control, receiving, shipping, causative research, and investigations.

Logistics Program Specialist / Data Quality Lead | Sep 2009 - May 2011

McAlester Army Ammunition Plant (MCAAP) | McAlester, OK

- Led LMP data-quality activities, collected and analyzed KPIs, monitored system trouble tickets, and presented status, risks, trends, and corrective actions to senior management.
- Provided technical expertise in demand management, material planning, master scheduling, capacity management, master data, and modernization impacts.
- Improved data accuracy by researching discrepancies, coordinating corrections, and reinforcing consistent business rules.

General Supply Specialist | Nov 2006 - Jun 2009

McAlester Army Ammunition Plant (MCAAP) | McAlester, OK

- Performed full-cycle material accountability, including receiving, shipping, quality control, physical inventory, reconciliation, audits, investigations, and inventory adjustments.
- Reconstructed complex ERP transactions, corrected material and location records, reconciled barcode data, maintained investigation files, and prepared reports and statistical information.
- Submitted system-change requests, recommended corrective measures, trained personnel on automated systems, and supported customers, vendors, contractors, and operations teams.

EARLIER MCAAP EXPERIENCE

Forklift Operator / Woodworker | McAlester Army Ammunition Plant | 2004 - 2006
